

TrustPay

TrustPay.

**An experienced partner
for your business since 2009.**

VISA

SEPA

A dark grey world map is visible in the background of the left half of the slide. A blue arrow-shaped graphic points from the left edge towards the text.

Card Acquiring

Accept online card payments
with an experienced, service
oriented acquirer!

Multicurrency processing and settlement

With **TrustPay**, you can accept card payments in over 170 different currencies and in turn receive your settlement in 11 different currencies, including EUR, GBP and USD.

Lower your costs and reduce the complexity by working directly with an „acquiring bank“. **TrustPay** is a direct member of both Visa and Mastercard and thus you are cutting out the middlemen.

Direct acquiring

Automated reconciliation

Eliminate your manual reconciliation with **TrustPay's** superior reporting tools and save costs! Whatever the delivery channel- advanced (API, SFTP) or less technical (e-mail), **TrustPay** has you covered. Wide range of report formats supported.

Every business needs a stable, experienced partner to accept payments. With more than 8 years of experience, TrustPay will give you the edge you need!

Experience!

Issuer behaviour examination

We analyse the approval ratios of issuers and proactively reach out to them to further boost your approval rates!

Unique premium features

Authorisation ratio optimizer

Improve your approval rate with TrustPay's holistic, AI powered analytical report! Detailed monthly analysis of approval ratios for your top countries and BINs with specific tips to improve them.

Business Accounts

The ultimate bank account
alternative for businesses.

A global business account
for convenient payments,
with modern interface and
prepaid cards.

TrustPay accounts are available in several currencies, including EUR and GBP. Each account has its own unique IBAN.

Multicurrency

Fast, secure payments

Send and receive real-time/same day payments through SEPA (EUR), CHAPS and FASTER PAYMENTS (GBP).

API Banking

TrustPay's API Banking allows you to embed your **TrustPay** corporate account directly into your existing business workflows. Use it to automate outgoing payments and download customised reports and statements!

With **TrustPay** prepaid cards, you get prepaid MasterCard cards linked to your accounts. You can monitor the spending of your team in real-time, request multiple cards or immediately block them in case they get lost.

Prepaid cards

Remote account opening

Open your account with TrustPay remotely,
using modern video-KYC tools, 100% paperless!

A dark grey world map is visible in the background of the left side of the slide. A bright yellow rectangular shape is positioned behind the main title text.

Virtual IBANs

Revolution in inbound
payment processing!

Streamline the reconciliation
of your inbound payments
by issuing a unique IBAN per
customer.

No more lost payments!

Eliminate payment references and lost payments with our virtual IBANs! By assigning each one of your customers /contracts a specific IBAN, you always know who is paying for what. No references to be filled in, all your customers need to remember is the IBAN number. No more payments will get lost in your systems.

All payments to virtual IBANS are credited to a single account, so you only ever have to reconcile the main account! Eliminate your manual reconciliation with **TrustPay's** superior reporting tools and save costs!

Automated
reconciliation

All of the virtual IBANs issued by **TrustPay** are EUR denominated SEPA accounts. Thus, you can accept same day payments throughout Europe at almost no cost to your customers.

SEPA Solution
